

# Emergency medical tent, disaster response + decontamination tents

## Event medical and mass casualty tents

Since 1953 the brand name LANCO stands for textile ideas from Hannover Germany. From the inflatable tents in the 60s to tent plastic joints in the 70s almost always the design team of LANCO has been involved in the development. The full range of these premium quality medical tent and decontamination tent structures are now available in Australia.

### LANCO inflatable decontamination tent

Our mass decontamination inflatable tents are used by fire services, rescue services, civil defence, the police and armed forces around the world.

Self-erecting inflatable tents with a completely inflatable frame. All supporting elements are made of airtight fabric.

The tents can be set up by only one person using an electric blower or compressed air.

A shower system includes hose arch with full cone nozzles (4.7 l/min at 3 bar per nozzle), hand shower with 1.5m hose, stop-cock, D-coupling for water supply, C-coupling for waste water.

- Modular design
- Multifunctional
- All tents interconnectable
- Reliable – Transportable
- Floor area: 10m<sup>2</sup> – 60m<sup>2</sup>
- Span: 3:40m – 5.70m
- Flame resistant, UV-resistant material

No obligation, just practical advice on the best solution for you
